

Seed Mixes

Erosion Control Seed Mix (2 lb. bag) - A blend of Birdsfoot Trefoil, Timothy, Tall Fescue, Annual Ryegrass, Alsike Clover and Red Top. Excellent substitute for crownvetch. For severe erosion control measures. Covers 2000 sq. ft.

Bird & Butterfly Seed Mix (1 oz. packet) - A blend of different annual and perennial wildflower varieties designed to attract both birds and butterflies. Covers 250 sq. ft.

Showy Northeast Native Wildflower & Grass Mix (1 oz. packet) - A mix of native wildflowers and prairie grasses that will provide a wonderful display of color from spring through summer. This full sun/part shade mixture contains drought resistant species that attain an average height of 2-3 ft. Excellent for native meadows and wildflower patches. Covers 200 sq. ft.

Wildlife Food Plot Seed Mix

Create Food Plots for Wildlife!! (25 lb. bag) - Plant this mixture of sorghum, millet, soybeans, field pea, sunflower, buckwheat & foxtail to provide a supplemental food supply for wildlife. This mixture is an excellent choice for the conservation-minded landowner who wants to attract wildlife. Covers ½ acre.

Tree Packets

Native Spring Flowering Packet (2 each of the following species-six seedlings total-No substitutions)- Eastern Redbud, Shadblow Serviceberry and White Flowering Dogwood

Honey Bee Pollinator Tree Packet – Requested by local bee keepers! (five each of the following species - 20 seedlings total-No substitutions)- Black Locust, Northern Catalpa, Sassafras, Sourwood.

Nut Tree Packet (2 each of the following species-10 seedlings total-No substitutions)- Chestnut Oak, Chinkapin Oak, American Hazelnut, Shagbark Hickory, White Walnut (Butternut).

Deciduous Trees

American Chestnut (*Castanea dentata*) Rapid growing trees that can reach 60 to 100 ft. at maturity. This species has shown a resistance to chestnut blight but it is too soon to claim resistance.

Black Cherry (*Prunus serotina*) Grows to 60+ ft. at maturity. Tolerates a wide variety of growing conditions.

Black Walnut (*Juglans nigra*) Reaches up to 75 ft. Grows well in most locations, but prefers fertile, deep soils.

Northern Red Oak (*Quercus rubra*) Reaches 80+ ft. at maturity. Prefers full sun and acidic soil.

Sugar Maple (*Acer saccharum*) Reaches heights over 100 ft.. Prefers partial to full sun and well-drained soil.

White Oak (*Quercus Alba*) Grows to 100ft or more. Grows best on south and west facing slopes. Great for wildlife

Coniferous Trees

Canadian Hemlock (*Tsuga canadensis*) Grows 60-75 ft. at maturity. Grows best in cool, moist locations.

Bald Cypress (*Taxodium distichum*) Grows 100-120 ft. at maturity. Prefers very wet soils.

Colorado Blue Spruce (*Picea pungens* var. *glauca*) This large evergreen with a moderate growth rate can reach heights of 100+ ft. Prefers fertile, moist soil in full sun, but will tolerate dry, well-drained areas as well.

Eastern White Pine (*Pinus strobus*) An outstanding timber pine due to its large size (80+ ft. at maturity) and fast growing ability.

Norway Spruce (*Picea abies*) Fastest growing spruce. 100 ft at maturity. Grows well at most sites.

Scotch Pine - Lake Superior Blue (*Pinus sylvestris*) Medium-size pine that can grow to 60 ft. at maturity. Prefers well-drained soil and full sun.

Fruits and Mushrooms

Yellow Delicious Apples Dwarf varieties, Common Pawpaw, and Shiitake Mushroom

Groundcover

English Ivy and Pachysandra

Pollinator Seed Mixes

Created by Pheasants Forever, these seed mixes were designed to provide high-quality, long-lasting wildlife habitat that meets or exceeds Ohio Department of Agriculture, Natural Resources Conservation Service, and Farm Service Agency standards for pollinator and beneficial insect habitat.

#H12 Pollinator (3.766 lbs/acre) – Little Bluestem, Prairie Dropseed, Sideoats Grama, Golden Alexander, Alfalfa, New England Aster, Smooth Blue Aster, Crimson Clover, Grayheaded Coneflower, Purple Coneflower, Upright Coneflower, Lancehead Coreopsis, Evening Primrose, Stiff Goldenrod, Showy Goldenrod, Illinois Bundleflower, Annual Lespedeza, Butterfly Milkweed, Common Milkweed, Partridge Pea, Prairie Cinquefoil, False Sunflower, and Black-eyed Susan

#H13 Pollinator Forb/Legume Only (3.216 lbs/acre) – Golden Alexander, Alfalfa, New England Aster, Smooth Blue Aster, Crimson Clover, Grayheaded Coneflower, Purple Coneflower, Upright Coneflower, Lanceleaf Coreopsis, Evening Primrose, Stiff Goldenrod, Showy Goldenrod, Illinois Bundleflower, Annual Lespedeza, Butterfly Milkweed, Common Milkweed, Partridge Pea, Prairie Cinquefoil, False Sunflower, Black-eyed Susan.

For a detailed description of any of the trees and/ or shrubs available, you can contact the Meigs Soil and Water Conservation District office Monday through Friday, 8:00 a.m. to 4:30 p.m. We will mail a full brochure with descriptions of height at maturity, sun and soil preference, and landscape usefulness.
