

2017-2018 Preschool Programs

Programs offered to all Meigs County Schools are FREE of charge. Programs range from 30-45 minutes and can be combined and modified. Contact Jenny Ridenour at the Meigs Soil and Water Conservation District at 992-4282 from 8a.m. to 4:30 p.m. or email jenny.ridenour@oh.nacdnet.net to schedule a class presentation. Please schedule at least a week in advance.

This is not a complete list of programs. I will also develop a program to meet any environmental education need. **If you don't see a program that you used before it is still available.**

Rocks

Have you ever really looked at a rock? They are all different colors, shapes, sizes, and textures. Students will look at a variety of rocks and observe these differences. The program includes a story and craft.

The Mitten

This program can include reading the story. A bear skin, owl talon, badger mount, and red fox fur are brought to the classroom.

The Amazing Eastern Box Turtle

Students get up close and personal with Ohio's only land turtle. Activities include a story and a live turtles.

Amphibians

This spring program uses live frogs and salamanders to study life cycles. Students learn about amphibian habitats and what amphibians eat. Program includes a story and craft. This program needs scheduled in April or May.

Trees

Students learn about the different parts of a tree and then examine the parts using hand lenses. A short story about trees can be read. A tree craft can also be added to this program.

Pumpkin Circle

This program can be borrowed for 2 weeks or can be a presentation. It is a great book about the life cycle of a pumpkin. A craft and many additional activities can be used.

The Wild Turkey

Students learn about this interesting game bird. One student is turned into a turkey using props to discover why a turkey looks like it does. Different calls are demonstrated and a fun craft can be made.
